You were wrong when you said everythings gonna be
alright

You were wrong when you said everythings gonna be
alright

You were right when you said all that glitters isn't gold
You were right when you said all we are is dust in the
wind

You were right when you said we're all just bricks in the
wall

And when you said manic depression's a frustrated
mess

You were wrong when you said everythings gonna be
alright

You were wrong when you said everythings gonna be
alright

You were wrong when you said everythings gonna be
alright

You were right when you said you cant always get what
you want

You were right when you said it's a hard rain's gonna
fall

You were right when you said were still running against
the wind

Life goes on long after the thrill of living is gone

You were right when you said this is the end

Do you ever think about it?

Do you ever think about it?

Do you ever think about it?

Do you ever think about it?
