"Acid Rain"

This is my palace
A world of ruined days
That you created
Aren't you amazed?
It seeps through my skin
I can't get it out
So what lies within?
You'll soon find out

It's like acid rain
Burning me up
I want you to pay
For what you've done
I want you
And all of your friends
To die in a sea
Of eternal misery

This is my land
Full of dark souls
I am the king
Of blood and the cold
Demons of hell
And you will see
Cause I swear now
You will join me

It's like acid rain
Burning me up
I want you to pay
For what you've done
I want you
And all of your friends
To die in a sea
Of eternal misery

So come on bitch
You see what you've done
We're taking a short trip
To the dark side of the sun
You will regret your sins

And that you screwed with me
Now your life will end
And I will be free

And I will be

FREE!
FREE!
FREE!
FREE!

And I will be

FREE!
FREE!
FREE!
FREE!

It's like acid rain
Burning me up
I want you to pay
For what you've done
I want you
And all of your friends
To die in a sea
Of eternal misery

It's like acid rain
Burning me up
I want you to pay
For what you've done
I want you
And all of your friends
To die in a sea
Of eternal misery

MISERY!
MISERY!
MISERY!
MISERY!
