You see a beautiful angel
You see a happy and wonderful child
No one knows the truth about you
They think you're calm and you're mild
I saw deep inside of you
I saw the ungodly twisted truth
You're two-faced, bad to the bone
You're angry and you're alone

One side
Is the light side of you
The other side
Is the dark path you've gone to
One side
Is where I wanna be
The other side
Is the one that can't be free

Angel
Bound to death
Can't seem
To change the past
You won't
Fix yourself
So everyone
Just hangs themselves
To you

I knew you as a kind young girl
You were thoughtful and never so cruel
I spoke, you responded well
We were friends, your motions moved true
And then once we were alone
I saw love, you saw burnin in hell
So you reject, you neglect, won't accept someone
And that's when I knew the truth to tell

One side
Is the light side of you
The other side
Is the dark path you've gone to

One side
Is where I wanna be
The other side
Is the one that can't be free

Angel
Bound to death
Can't seem
To change the past
You won't
Fix yourself
So everyone
Just hangs themselves
To you

When we met again, you turned away
I cried, I screamed for you to stay
With me, for things to change back
But you wouldn't make things the same
Now I sit, and I wait, for you to be sane
I wonder if I'll know the one
I knew, the good side unstained
By the thought of spending life with someone

One side
Is the light side of you
The other side
Is the dark path you've gone to
One side
Is where I wanna be
The other side
Is the one that can't be free

Angel
Bound to death
Can't seem
To change the past
You won't
Fix yourself
So everyone
Just hangs themselves
To you

Where is the good side I knew?
Where is the love that was so true?
Where is the light side again?
Two-faced, it can't be you?

Angel
Bound to death
Can't seem

To change the past
You won't
Fix yourself
So everyone
Just hangs themselves
For you
For you
To you
To you

Angel
Bound to death
Angel
Bound forever yet
Angel
I need you now
Angel's
Gone to hell
