I wish you were still here
But wishing for you won't bring you back
If I could turn back the hands of time
You would always be...

Somewhere there's another, all in for the other
Two can breathe forever
Nowhere there's another life into the after
Two can live forever
Two can live forever

Still today I feel you near
And every time I feel you I'm at peace
It's the things that you said to me
That I cherish most of all

Somewhere there's another, all in for the other
Two can breathe forever
Nowhere there's another life into the after
Two can live forever

Somewhere there's another, all in for the other

Somewhere there's another, all in for the other
Two can breathe forever
Nowhere there's another life into the after
Two can live forever
Two can live forever
(Forever, forever)
