The fire inside
The fire of body and of mind
Locked away inside this box
The spark of thee Divine

Mortals can not pass this threshold
Without leaving something behind
She'd the skin of a broken machine
Enter the Realm of thee Divine

I'm reaching out for something
Fist full of determination
I'm reaching a new level
Mind full of revelation

Akasha calling out to me now
Through the crack in my minds eye
Above and beyond the spiral
I've reached the Realm of thee Divine

Mortals can not pass this threshold
Without leaving something behind
She'd the skin of a broken machine
Enter the Realm of thee Divine

The angels cry while the demons sing

The Gods run from the fire I bring
Experience this mortal death
The path of life Everlasting

They've kept it all to themselves
This precious kingdom
Time to tear down the golden gates
Of this esoteric illusion

The fire inside
The fire of body and of mind

Locked away inside this box
The spark of thee Divine

She'd the skin of a broken machine
Gods run from the fire I bring

No longer a puppet
I have cut the strings
Snip
Slice
Sever the master
Gods run from the fire I bring

They've kept it all to themselves
This precious kingdom
Now there is nothing left
Nothing left
