Don't know where I'm goin to  
I don't know where I've been  
Don't really care bout anything at all  
And I don't plan on going back on it

I've seen a lot of things in my time  
But the hope never to die out  
At the crossroads  
And the place in time  
Where we survive  
Is at the crossroads

Don't know why my life is the way it is  
And I don't really give a shit about it  
Don't really care about anyone at all  
And they don't give a fuck about me

Cause I've seen a lot of things in my time  
But the hope never seems to die out  
At the crossroads  
And the place in time  
Where we survive  
Is at the crossroads  
At the crossroads

Yeah  
Yeah

Cause at the crossroads  
It's where we'll make our stand, yeah  
And at the crossroads  
Is where we'll meet our end, yeah

Well I can't say anything about you now  
Cause I don't think I know you anymore, yeah  
And I can't sit still on this topic anymore  
Cause I really can't stand to doubt it  
And I can't seem to do anything without it

Cause I've seen a lot of things in my time  
But the hope never seems to die out

At the crossroads  
And the place in time  
Where we will survive  
Is at the crossroads  
At the crossroads

Yeah  
Yeah

Cause at the crossroads  
It's where we'll make our stand, yeah  
And at the crossroads  
Is where we'll meet our end, yeah

So meet me at the crossroads  
I'm sure you'll find the way  
Just take my hand to guide you  
And I'll pull you along the way  
As we face another day

As we face yet another single day  
In this world that we've made  
At the crossroads  
At the crossroads

Yeah  
Yeah

Cause at the crossroads  
It's where we'll make our stand, yeah  
And at the crossroads  
Is where we'll meet our end, yeah

Cause at the crossroads  
It's where we'll make our stand, yeah  
And at the crossroads  
Is where we'll meet
