I see the starlight in the sky  
I see you there in my mind  
And I try to keep you by my side

I watch the heavens every night  
For a glimpse to catch your sight  
And I try to find my way tonight

To you, you're the reason why I'm here  
You are the one who takes away all my fear  
And you, you're the only one who I could care about

I just play your image in my brain  
And the thoughts just stay the same  
When I try not to think only thoughts of you

I can't believe the words I say  
When I just can't seem to explain  
Exactly what it is that I feel about you

And you, you're the reason why I'm here  
You are the one who takes away all my fear  
And you, you're the only one who I could care about

And you, you're the reason I don't go  
You're the love that I've always known  
So please come this way and stand right here by me

So take my hand and run away with me  
Please say that you'll be mine and walk this way with  
me  
Because I always knew that we were meant to be  
Together in the end we can be free

I stand before in the end  
You were once just my best of friends  
And now a love that I hope will never die

I came to stretch the lines of truth  
And to promise just to always be there for you  
Because I love you and I always will

And you, you're the reason why I'm here  
You are the one who takes away all my fear  
And you, you're the only one who I could care about

And you, you're the reason I don't go  
You're the love that I've always known  
So please come this way and stand right here by me

Come this way and stand right here by me  
Come this way and stand right here by me  
I love you, baby, so stand right here by me
