I remember
When I had a friend that I
Could call my own

I remember
When I could have her by my side
When the nights grew cold

But she don't come here no more
Never see her again
Don't know what happened
Don't know what I did

But I remember
When we used to care
And I remember
The joy that we shared
I remember
I used to know you well
I remember
But what happened next
I can't tell

I remember
The way you used to talk to me
When I needed you

And I remember
When I needed a friend just to hold
You were there for me

But you're not round here no more
I can't see your face
I can't have your embrace
I've grown tired of this place

But I remember
When we used to care
And I remember
The joy that we shared
And I remember

I used to know you well
I remember
But what happened next
I won't tell

Don't you remember
The good times we had?
Don't you remember
The way things should have been?
Don't you remember
What I used to say
To make you stay
Why won't you stay?
Why won't you stay?

But I remember
When we used to care
And I remember
The joy that we shared
I remember
The things we used to show
I remember
But what happened next
I don't know

Cause I remember
When we used to care
And I remember
But nothing's there
Cause I've forgotten
What we used to know
I've forgotten
How to let you go

I remember
When we used to care
