Six floors down  
We move in surround sound  
Beaming on down  
To the place of our town  
Screams grow loud  
As we keep going on south  
And we don't even stop  
To think about it  
To think about it

We're on a course  
On an elevator west  
To the left of sin  
And to the right of sex  
And we keep moving down  
This path that we've found  
But we don't even stop  
To think about it  
To think about it

We're on a way  
To the resting place  
Of all the rest of our days  
We're on a course  
To the devil's playground  
Our final destination  
Our final destination  
Our final destination

We set the sails  
For the end of our lives  
We pulled the wool  
Over each others eyes  
We set the scale  
And we broke the weight  
When we all chose  
Not to think about it  
Not to think about it

We broke the bank  
In the depth of our sin

We moved on down  
To a different drum  
We kept on going  
And we don't ever stop  
When we all chose  
Not to think about it  
Not to think about it

We're on a way  
To the resting place  
Of all the rest of our days  
We're on a course  
To the devil's playground  
Our final destination  
Our final destination  
Our final destination

We don't really stop  
To consider what  
We will do when it's done

We don't ever stop  
To think about it  
We just keep going down  
To our final destination

We're on a way  
To the resting place  
Of all the rest of our days  
We're on a course  
To the devil's playground  
Our final destination  
Our final destination  
Our final destination

We're waging war  
With ourselves  
For every sin we've done  
But even then  
We don't think about it  
Our final destination

Our final destination  
Our final destination  
Our final destination  
Our final destination
