(Grab the mic, plug it in and begin) --> KRS-One

[ VERSE 1 ]

Well, here's another track, backtrack for a second  
I reckon I be breakin this, you can pump your fist  
I'm not a pacifist or a pugilist, more like a preservist  
Dopest on the present list  
I'm scoopin up, swoopin up skins in a car  
Then the skins stick to me like a booger in a honey jar  
I got a stack of these in a knapsack  
Give a drum a trunk, I drive a Mac  
Blackjack 21, I'm whippin out the dealer  
Not a Wheel watcher, I'm a big booty feeler  
Drabble, dribble, flipple, zipple, down  
Below from shore to shore

[ CHORUS 2x ]

Cause I'm  
Thinkin of a master plan  
Thinkin of a master plan  
I'm thinkin of a master plan  
Cause ain't nothin but sweat inside my hand

[ VERSE 2 ]

Hush everybody, hush, papa's on the mic-type  
Rollin with the lyrics, put the crowd in a spotlight  
\_Three The Hard Way\_ wrapped up in one  
Bad apple drinkin Snapple, snap, crackle, tackle  
Tracks like Jason with an axe, givin 40 whacks  
To the wack suckers who are skillless, I'm illest  
On the microphone I'm sayin let's get it on  
To the break of dawn, to the break of dawn  
Herb go away, I'm no good for the this scene, you're  
cold blockin  
While I was on the microphone cold rockin  
Girl, hold on to your stockings I'm sure  
I got a Dawn in every state, from shore to shore

[ CHORUS ]

[ 2x ]

(Fat raps, funky fat track)  
(Fat raps, funky fat track)  
(Fat raps, funky fat track)  
(Hoo-ha, how ya like me now)

[ VERSE 3 ]

\_Mission Impossible\_ impossible  
Cause everything's possible, nothing's impossible  
Gotta keep ahead, gotta keep my head  
As I head back to the front cause the mic got me hype  
Sugar Pie Honey Bunch bunch in a bunch  
With the Sugar Pie Honeys in a bunch for my lunch  
Who's on the mic? I'm on the mic illy  
You say that's cold, but I say that's Chilly  
T to the r, no need to proceed  
With the spelling out letters of my name for the game  
I'm rockin, shockin, lockin up the mic  
And the girls to the core from shore to shore
