Better watch your back
It's coming back again
Better watch your back
It's coming back again

Don't tell you don't feel it
It's the only thing I know
Don't tell you don't hear it
I said I gotta go

Cause it comes
Straight to me
And I can't stand
Stand the way

It makes me feel
It makes me act
It makes me want to go away
It makes me feel
It makes me act
It makes me want to go away

Better watch your back
It's coming back again
Better watch your back
It's coming back again

Don't tell you don't feel it
It's the only thing I know
Don't tell you don't hear it
I said I gotta go

Cause it comes
Straight to me
And I can't stand
Stand the way

It makes me feel
It makes me act
It makes me want to go away
It makes me feel

It makes me act
It makes me want to go away

And it hurts
Hurts like death
And it hurts
Hurts like a poison
And it hurts
Hurts like death
And it hurts
Hurts like a poison

Better watch your back
It's coming back again
Better watch your back
It's coming back again

Don't tell you don't feel it
It's the only thing I know
Don't tell you don't hear it
I said I gotta go

Cause it comes
Straight to me
And I can't stand
Stand the way

It makes me feel
It makes me act
It makes me want to go away
It makes me feel
It makes me act
It makes me want to go away
