What do you suppose
Will bring you confidence
Saying anything
In front of the wrong friend
Look at that strong face
It's so deceiving
So misleadin', I swear
I'm becoming you again

And we're just like
the rest of us
Yeah, we're just like
the best of us

You're the biggest B.S.er
That I ever knew
Go away for a few days
Come back Pinocchio

And we're just like
the rest of us
Yeah, we're just like
the best of us

Look out for the demon
He's lookin' reseasoned
I bet you it's just a sign
I bet you it's just the same
On the east coast

What do you suppose...
What do you suppose...
What do you...

And we're just like
the rest of us
Yeah, we're just like
the best of us
