Black night is fallen

The sun is gone to bed

The innocent are dreaming

As you should sleepyhead

Sleepyhead

Sleepyhead

All the love above

I send into you

Comfort and protection (I'll watch over you)

But don't ask me what's gonna happen next

I know the future

I'd love to read you the way (Just to make it easier on you)

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

My dearest scatterheart

There's comfort

Right in the eye of the hurricane

Just to make it easier on you

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

All the hurt in the world

You know there's nothing i'd love to do more

Then spare you from that burden (It's gonna be hard)

If I only could

Shelter you from that pain (Just to make it easier on you)

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself

You are gonna have to find out for yourself
