We got stuck in our ways
Got tired of passing the blame
It's understandable
A smile and nothing to say
We're breaking up, what a shame
It's not irreversible

As I lay awake alone
I picture somebody else
Somebody better than myself

He takes her out
He drives around the same streets that I do
I watch it in my mind
Another ex and I'm racked with complications
And it just gives me
Headaches, Heartbreaks
Feeling so lost in my desperation
Jealous rage, turn the page on this situation
I'm not alone

And now she's all in my head
Can't get her smell off my bed
I can't chase the thought of you
Was it something I said?
I find it hard to forget
It's just my point of view
You're a memory that won't fade

You take up all of my time
Now every day is just the same

He takes her out
He drives around the same streets that I do
I watch it in my mind
Another ex and I'm racked with complications
And it just gives me
Headaches, Heartbreaks
Feeling so lost in my desperation
Jealous rage, turn the page on this situation
I'm not alone

It seems my dreams are killing me
And jealousy is all I can be

He takes her out
He drives around the same streets that I do
I watch it in my mind
Another ex and I'm racked with complications
And it just gives me
Headaches, Heartbreaks
Feeling so lost in my desperation
Jealous rage, turn the page on this situation
I'm not alone
