Have you seen the girl  
Who's running around with my heart  
She left me so confused  
I didn't take my chance  
When you offered romance  
I didn't think I wanted you

My fear's evaporated  
Left me feeling stupid  
I made it complicated  
Love with you

I figured it out  
The way I feel  
I can't get rid of something real  
So stupid  
Those things I do

She left without a trace  
It's true from the look on my face  
I made a big mistake  
I wanna drag you down  
And say I want you to help me out  
And tell me it's okay

My fear's evaporated

My freedom's overrated  
So why is it complicated?  
Love with you

I figured it out  
The way I feel  
I can't get rid of something real  
So stupid  
Those things I do

My fear's evaporated  
And left me feeling stupid  
I made it complicated  
Love with you

I figured it out  
The way I feel  
I can't get rid of something real  
So stupid  
Those things I do

I figured it out  
The way I feel  
I can't get rid of something real  
So stupid  
Those things I do

So stupid  
Those things I do
