Through the Depression
And the rise of the wolf
The great dictator stands on display
We don't want to hate and
Despise one another,
But we have surely lost the way

Narrowly escaping death by some
Californian miracle
No Name Maddox ridiculed

In their bleak house
Suffer hard times
If you can read between the lines
Then you will

Always I am with you
And you're so far away
Come to me
Always I stand with you

Through the Depression
And the rise of the wolf
The great dictator stands on display
We don't want to hate and
Despise one another,
But we have surely lost the way

A man's friendships are one of the
Best measures of his worth
Evolution has it's place on earth

Power forward or center yourself
Philadelphia, Phoenix, Houston
You could never be forgotten

Always I am with you
And you're so far away
Come to me
Always I stand with you

Through the Depression
And the rise of the wolf
The Great Dictator stands on display
We don't want to hate and
Despise one another,
But we have surely lost the way

Grow a pair and man up
Kick young Lucy in the face
Next time she pulls the ball away.

The debutante has given love to such
Undeserving souls
And they all know

Through the Depression
And the rise of the wolf
The great dictator stands on display
We don't want to hate and
Despise one another,
But we have surely lost the way
