Hear me my voice is hard to place  
Slow down the lines are hard to grasp  
Stay here and turn my heart around  
Calm down and never go back up

Say you'll stay oh it's not so hard  
Don't be scared you know I care for you

Hope I succeed, I hope to slow you down  
1000 words I couldn't get but one  
Don't take off, oh god I can't go on  
I'll burn the trees, and return as summer grass

Wait for me!  
I'll shine and burn for you  
Hope you see the grass that once was  
Don't turn away and never catch on fire  
I'll strike the match for you and no one else

I've said enough it's time for me to return
