Hunger feeds my being  
Thirst for putrid fluid  
Pain excites my anger  
Killing beyond my dream  
Waiting in my wrath  
Pouncing on my prey  
Amplify my senses  
Of my darkest need  
Screaming in the void  
Laughing as you suffer  
Glutted beyond my dreams  
Feel your carcass drain  
I must go beyond the hunger  
Torment obliterates my mind  
Alone in silence  
I lie in emptiness with hunger  
Complete through my tunnel of pain  
Everything in this realm I have tasted  
Time has failed to appease  
(Solo: Oster)  
(Solo: Hurley)  
Pretending to be alive  
Upholding your time to die  
Sanctified myself  
Genocide in mourning  
My heart has been touched  
As I taste the dead
