(Verse 1)

Let's start over
Act like we've never met
It's the mind eraser
Consumes what you must forget
Cause it's a new beginning
Everything's better now
The tide is changing
We're rearranging

(Pre-Chorus)

Now that it's gone
We're gonna make it

Now that's it's gone
We'll make it through somehow
Now nothing's wrong

(Chorus)

Let's start over
(Don't wanna talk about it)
Let's start over
(Don't wanna talk about it)
It's all over
That's what life is about

(Verse 2)

I'm on the tip of the iceberg
And I ain't coming down
I'll be here forever
My home is lost and now is found
Cause now we have each other
And that's all that I need now
Nothing could be better
We'll be here forever

(Pre-Chorus)

Now that it's gone
We're gonna make it

Now that's it's gone

We'll make it through somehow
Now nothing's wrong

(Chorus)
Let's start over
(Don't wanna talk about it)
Let's start over
(Don't wanna talk about it)
It's all over
That's what life is about

The tide is changing (x7)

... Changing
