{"I'm bout to hit you with that traditional style of
Cold rockin" - KRS}

[Pumpkinhead]

Welcome aboard the Underground Railroad, I'm your
Captain

I'm gonna explain the reason why I keep on rappin

Why I keep on movin, doin shows in Manhattan

Knowin in my heart, that I'll probably never go

Platinum

See it's for the love, music is in my protoplasm

I can only wish but I don't have a genie and my name's

Not Aladdin

Fasten your seatbelts, we're takin off soon

I'm gonna rock rock on, on a rocket to the moon

Start a label up there, sign an alien rappin clique

Sell a million units, and get paid in amethyst

Cause on this planet, reality doesn't exist

You'd rather sell souls than to sign some real shit

But I refuse to put it in park so I'm shiftin the gears

Even though time flies, I'm 28 in years

That's about 10 thousand and 2200 months

Spittin heat for ten years and haven't been signed once

How I'm 'sposed to blow up, when independent labels

Front

Don't pay up, don't promote, your record label sucks

You got MC's out there that deserve to get put on

So for them, I'm gonna rock rock rock on

Supernat (rock rock rock on)

And The Plague (rock rock rock on)

Stronghold (rock rock rock on)

Red Clay (rock rock rock on)

Juggaknots (rock rock rock on)

M-Pire (rock rock rock on)

All of y'all (rock rock rock on)

N.Y. (rock rock rock on)

At first, I wanted to paint, so I went to art school

Then I saw heads rappin, bangin on tables in the

Lunchroom

In a cypher, they were playin some hot beats
And these heads rappin was C-Rayz Walz and Mobb
Deep

Yeah - I went to school with them dudes
And they dropped out, and eventually I did too
I formed a crew with a group named Doom, they call
'em

Hydra now

And they even sound liver now
So me and Blitzkrieg, now we got Park Slope on lock
That's when I battled, this Puerto Rican cat named
Block

And we battled, he beat me, I was impressed with his
Flow

He saw potential, so we broke bread and smoked 'dro
This ain't fake, trust me this is a real tale
Block had a group called Zooty Zoo and introduced me
to

Will Tell

We did a track with Medaphoar and shit clicked rapidly
Then Block said let's form the Brooklyn Academy
So we did, kids flipped, they loved our songs
We were like Pink Floyd, Run-D.M.C. and Cheech &
Chong

Then Black Panther Marco Polo came along
So now we gon' rock rock rock rock on

Jean Grae (rock rock rock on)

E.L.W. (rock rock rock on)

Medina Green (rock rock rock on)

And Hiero (rock rock rock on)

Beatminerz (rock rock rock on)

Boot Camp (rock rock rock on)

Molemen (rock rock rock on)

All of y'all (rock rock on, yeah)

[Pumpkinhead]

I never stop (stop) but I pause for the cause
When I rock (rock) my voice echo through halls
And the block (block) be like P-H, "It's yours!"
I'm so (hot... hot... hot)

I rock for Brooklyn, Park Slope, that's my home
I rock for the brothers on lock gettin chopped for the
Phone

I rock for the b-boys and the DJ's

I rock for MC's and writers, catchin tags on the
Freeway

I rock for my dad and my uncles, rest in peace

I rock for my grandma Isabel who's also deceased

I rock for those who died, and those who are alive
I rock for my mom and sis they helped me to survive
I rock for my wife, she brought our son in our life
I mean it so sincere that I'm sayin it twice
I rock for my wife, she brought our son in our life
I rock for him like when I rock him to sleep at night
I rock for the Ak, my family, in these dark days
I rock, for y'all, like I rock for The Plague
And one day, we'll all be one, rockin on stage
Lord what I say is true so I'm rockin for you

We goin Ocean (rock rock rock on)
Everliving Sound (rock rock rock on)
