Early mornings
When I'm waking up
My alarmclock it don't wanna stop
I don't know if
You feel the same way too
But all I want is waking up with you

Early mornings
When I'm waking up
My alarmclock it don't wanna stop
I don't know if
You feel the same way too
But all I want is waking up with you
In the bathroom
The next place I go to
I have a picture with my dick in you
I like to watch it
When i masturbate
'cause my sperm it
Just don't wanna wait

In the backseat of my daddy's car
The one we drove in from the big graveyard
Where all the people lies ther all ate up
By all the worms and all the cannibals
