Life, what does it mean?
Life, check it out

Tell me sometimes do you feel like
You're servin' no purpose in life
And you ask yourself all these questions why
And life still passes you by, tell me

Did you know, did you know
That what you do affects the stars above
And the earth and the moon and the sun
And did you know
That me and you represent peace and love
If you feel like we do

So if you feel like we do
Then vive with the music
Just let us enter your soul
And if you know like we know
Then you've got to use it
Just let it take control

La la la la la la
Ooh, aah
La la la la la la
Ooh, aah

Stop and think now what it's all about
And maybe you too will find
That your reality is without a doubt
Just a reflections of the thoughts on your mind, listen

Life is just what you do based on the things you know
You've got to find what you're here for
So if you just know yourself everything else will flow
So if you feel like we do

So if you feel like we do
Then vive with the music
Just let us enter your soul
And if you know like we know
Then you've got to use it

Just let it take control

So if you feel like we do
Then vive with this music
Just let us enter your soul
And if you know like we know
Then you've got to use it
Just let it take control

La la la la la la
Ooh, aah
La la la la la la
Ooh, aah

Tell me did you know
About respect yourself
And did you know about the helpin' hand
Did you know about enjoy yourself
And did you know about the first man

Peace
