Sex... Sexual  
Sex... Sexual  
Sex... Sexual  
Sex... Sexual

Tonight we share a night of ecstasy and sweet  
romance  
I will make you feel so special if you give me half a  
chance  
I respect your femininity oh so much  
So prepare yourself for a night that can only be  
described  
as sensuous... it will be

repeat chorus

We have been together for some time but now I feel  
Your resistance to my persistence intensifies your sex  
appeal  
I perspire with desire when I see your naked skin  
This erotic moment brings up everything within oh baby

repeat chorus

You are mine... baby I am yours  
I am yours, hey you are my baby  
You are mind.and I think it's time  
Come here baby... shhhh... don't say a word  
Let your emotions do all the talking  
Can you feel it  
Can you feel it ...I can feel your love baby  
Can you feel it... baby oh baby yea, yea, yea  
Can you feel it, feel it, feel it, feel it  
You look so good, baby  
You don't have to go

repeat chorus
