Rotting from the inside, this agonized form resembles  
a man  
Scorn burst from the heart, rancor cracking ribs,  
Coating its recesses in toxins  
Based loathing within the loins seeps malice through  
its pores  
Ashing tissue, blackened with contempt  
Pestilent, corrosive to the touch  
A blight on humanity

Never must it speak  
Never must it bleed  
It mustn't even breathe

Rather than arming the mind  
With knowledge and awareness  
It wracks its guts with spite  
Damnable abomination  
A conscious contagion infecting mankind

Trails of acid trill from addled sockets where tears and  
vision  
Had once soothed and stirred the mind  
A mortal ulcer, agent of progressive atrophy  
Abetting and defining social  
Regression

Bile  
From its gaping maw  
Vengeance  
Spitting vain and groundless  
Hate spawn  
Bearer of all discord

Condone its actions, deny its impact  
And justify the unjustifiable

The truly weak spread venom  
The truly strong digest it  
Digest it

Rather than bracing the heart with balance and serenity  
It wracks its gut with spite  
Damnable abomination  
A conscious contagion infecting mankind

The truly weak spread venom  
The truly strong digest it

See it quarantined and torched lest every man,  
woman, and child  
Die defiled by a mass spread of venom
