You excite me, I want touch you
But firs I want to eat
Excrements from you face

Bubbling sounds from your pink hole
Stinkin' smell of your skin
I touch it deep with my finger
You smell's tasty like excremental blot out
I try to lick it but you drive away my tongue

You excite me, I want to touch you

Slowly touching your skin
I dissappear in coprophagian madness
Salty taste of complexion
Shivering tits covered with diarrhoea
I am now in my area

Trembling body shit on me
Rosy body piss on me
Horny body juice on me
Nasty body throw on me
Secrete your mire on me

You excite me, I want touch you
But firs I want to eat
Excrements from you face
