My Day

i see it in her eyes
she hates me! - she hates me!

i will not try to get calm
what i am, what i want will be the day!
i lay the blame away from me
she smashed me up in my trustability
but this is my day

i will not wait for her chuck
what she wants is not big for me!
don't want to know what she could do
she's just a bitch - her aim is to smash me up
but this is my day

this is my day!
did you thought it was my way?

i will not try to get calm
no result fÃ¼r this lasting remake
why does she bring this ache to me
now i know amity is a barren land
so this is my day

this is my day!
did you thought it was my way?
