You mean nothing but trouble baby, beat it  
You mean nothing but trouble baby, beat it  
If you think that you're still my friend  
You are wrong, don't you understand  
We can't go on like this, love was just a game now

You deceived me like a child so stupid  
You deceived me like a child so stupid  
I never believed you're a duchess  
'Cause you cannot lie when you ought to  
But I loved you so, everything was different

I despise you, I despise you

You tumbled all back down  
I despise you, I despise you  
The queen without a crown

I despise you, I despise you  
You tumbled all back down  
I despise you, I despise you  
The queen without a crown

You mean nothing but trouble baby, beat it  
You mean nothing but trouble baby, beat it  
If you think that you're still my friend  
You are wrong, don't you understand  
We can't go on like this, love was just a game now
