Sour wine by Q65

waving hands is what I see  
you mean too much for me  
o, I am sorry that I've gone  
but that's already done

did not want, to go away  
but I had too do, I could not stay  
everytime I think of you  
it was the best thing I got do

I set you free at that time  
but now I taste the relish of sour wine

starring at the loneley avenue  
starring and thinking, thinking of you  
you married whith a man  
who can't love you like I can

I set you free at that time  
but now I taste the relish of sour wine
