[Chorus Pt 1]

Take that motherfucker here's a bomb on y'all

Dynamite in the heat of the night I get raw

Get the mic get creative and break the last straw

Doper than the dopest shit that you ever saw

[Chorus Pt 2]

And we breaking their laws and we're breaking their  
jaws

And they try their best to keep up with the mouth of the  
Czar

They're getting stabbed in their arm, they're getting hit  
by a car

They're getting stoned on relentlessly with two by fours

(Lyrics Born [& Lateef]):

So hey Lateef [what's happening] I want to see my  
cousin freak it up

Like demon fuzz, making all the disbelievers give it up  
[and you know that]

Now with the whole world listening

You got the floor chisel it in with precision

(Lateef): Because we're meaner and we're cleaner  
stepping into the arena

Set the roof on fire, like a lighter and gasolin-a

Got the people hype regardless of their nation or

region

What's the reason

It seems my singing is pleasing I'm still protected from  
treason

They keep ringing them, kind of like a guitar string

Jingling jangling with your mental I'm mangling

If you hating on the beat, or the lyrics that I'm singing

Like a four pound hot shot straight through Texas

(Lateef & [Gift of Gab]):

Ay yo Gab (what's up) show them what you have  
(alright!)

I know you're itching for this microphone to grab (and  
you know that)

We independent like trucks with ??bolts oh??

Now flip the track, like the thing was a train and you's  
the Incredible Hulk

[Gift of Gab]

I'm crumbling an underling another thing a brother  
mumbling

I'm pummeling I'm humb-ely because I rhyme like  
Thumbelina

Hovering above covering your mouth, I'm hot like  
JalepeÑ±os

The arena now is unbelievably

Wondering how the undefeated brother be uncovering

Discoveries that's undistinguished can I form my  
English?

Orbiting above sort of fiending for the portal

Bringing up the sulfur then be pourn out the outer  
reaches for you!

[Chorus pt 1]

Pulsating cross creeping through the blades of grass

Bass bumping formation like an ancient plant
