(intro)

Say something to slow her
hands around my neck
Just cut off her arms
Throw my pills into the well we drink
Infect the words that we say

(verse)

I'm hallow inside out and
we need you here free us now
fire lighting every sky free us now,
we need you here so save the day

(chorus)

So save the day Come take this all away,
come on now Woah
My hearts on the floor What are you waiting for,
come on now Woah

(verse 2)

Indecisive thought running through my veins
Come wash them away
Softly screaming calling out your name
Come save the day
I'm hallow inside out and
we need you here free us now
fire lighting every sky
free us now,
we need you here so save the day

(chorus 2)

So save the day Come take this all away,
come on now Woah
My hearts on the floor What are you waiting for,
come on now Woah

(Bridge)

Can you hear me calling
Someone crying
A hero's listening
is someone coming

(Chorus 3)

So save the day Come take this all away,
come on now Woah
My hearts on the floor What are you waiting for,
come on now Woah

(outro x2 repeat twice)

wake the graves
and see whats going on when,
broken hands could save me
