Explode within, when we begin
You're from afar, a shooting star

And I can't explain the way I feel
And I don't want this to end
Someone tell me how could this be real
Something I just can't pretend

You're just like a Supernova

The presence of your fire, is always taking me higher
Overwhelming every desire, constantly burning
brighter
The light that shines, which is divine, let's me climb
above the skies
Open my eyes, finally realize, where the truth lies
you're by my side
Letting me fly within my mind, Time after time, as I'm
blind
Stars collide, lifting souls, out of control many wonders
that you
Hold explode pass, the stress and pain developing a
new dwelling
Is where I remain

You're just like a Supernova
Bursting over my world
You're Just like a Supernova
Bursting over my world

Never felt like this, never-ending bliss
And I can't explain how this became

And I can't explain the way I feel
And I don't want this to end
Someone tell me how could this be real
Something I just can't pretend
