Spinning in place, it's something that you do to me
The world stops now, dawn falling over me
Pulling clarity, over thee eyes
Longing for the time, it's something that you do to me

Drown me in this river
(I can't be without you, I can't breath without you,
The wind blows against me, only you)
These words will cease to hinder
(Take me away so far away
From here, take me with you)

Will I ever find, will I ever know
What it feels to be with you
Will I ever be, will I ever see
What it feels to be with you

Edge side to all
Screaming in the distance
Graying with the dull
Breached into pieces
Painting moments against the vast
Alone I stand
Screaming in the distance
Idle stone cry
Sweet hopes of you and I
Windows thrown wide
Placed here ending
Descending pale moments
Muted dying skies
Fallen ever high
With sweet hopes of you and I

Drown me in this river
(I can't be without you, I can't breath without you,
The wind blows against me, only you)
These winds will cease to hinder
(Take me away so far away
From here, take me with you)

What it feels to be (feels to be)

Be with you (be with you)
Feels to be (feels to be)
Be with you (be with you)
