

Burning Water

"Missles And Markers"

Visit "[Missles And Markers](#)" on MotoLyrics.com

Created picture plains with the sky permission to land
or we'll dissolve into air with a heavy heart we'll
mark the fiction here it's over now

We captured time and space
We made it relative
To the ocean, view of you recall

subside single waves burn the memories inside they
scream out give it one more shot exploding fragments
of the makeup say we're right again

We captured time and space
We made it relative
To the ocean, view of you this is

The place where we have comethis the time when we
come
clean and i'll says there's always more to know why
can't we save our times here

We captured time and space
We made it relative
To the ocean, view of you we call
it quits tonight
