(Verse 1)(Que)

I feel like I'm letting go
Are you gonna walk away
You run and grab my heart
Keep it away

Would you stay with me forever
I can't see your're so far
Let's make this last forever
My heart is yours to start

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to
I hope I do
(I hope it do)cause we're free, free falling(2x)

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to

(Verse 2)(Dawn)

I maybe don't want to stay
But I just can't walk away
Love made too many mistakes
Heart I still in the place

Would you stay with me forever
I can't see your're so far
Let's make this last forever
My heart is yours to start

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to

Cause we're free, free falling(2x)

Baby I'm crazy I'm falling in love
But I don't care baby cause love is love
Baby I'm crazy I'm falling in love

But I don't care baby cause love is love

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to

Cause we're free, free falling(2x)

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to

Cause we're free, free falling(2x)

Cause you got my attention baby and all you gotta do
Is fall straight into my arms and let my love fuse
You know you know that I you really want me to

Cause we're free, free falling
