Hey girl, whatcha doin'
There's something in the kitchen that shouldn't be
brewin'
Oh, hey, step away
We should save our love for another day, but
Hey babe, you got me goin'
The kitchen's on fire and we're stuck in the oven
Oh, hoo, you should know
All of this makes me love you more

Hey n' everything seems alright
And i know that you will have me tonight
Take me where my heart says yes but
My mind will say no (mind will say no)

Hey girl, you got me lover
The house burned down and we're running for cover
Hey, hoo, you should know
All of this makes me love you more

[rockin' guitar solo]

Hey n' everything seems alright
And i know that you will have me tonight
Take me where my heart says yes but
My mind will say no, mind will say no!

Hey babe, you got me lover
The house burned down and we're running for cover
Hey Hey you should know
All of this makes me love you more
Woooooooooooooooooooooooooooo
woooo woooo waaaaaaa
Woooooooooooooooooooooooooooo
woo woo woo

All of this makes me love you more

[Rockin' Outro]
