I got feeling, tell me what you're feeling

Chorus:

I've got a feeling you don't mind  
Boy I've been taking up your time  
Tell me what you're feel what's on your mind  
Everything is sweet it's sublime

Showing off on the big court  
Making moves that can never be taught  
You're so fine that's what I thought  
Baby, the moment from the tip off

Can you hit it to the backboard?  
Then come and tell me if you can afford  
To play one on one in my court  
Baby, yeah! That's what I thought

Chorus x 2

If you can be my man come step into play  
I'll be your coach, I'll train every day  
And I don't even care what the refs gotta say  
Cause they don't know, don't know the game we play

Can you step into my sideline?  
You're so fine no more wasting my time  
What's your aim and what's your goal now  
Baby, I ain't gonna take no fouls

Chorus x 2

Bridge:

I got what you want baby  
I got what you need baby  
I got what you want baby  
Got what you need

Bridge

Rap:

We can play, baby take me on  
One on one, wanna see you sweat  
Wanna see you gettin' it on  
When the whistle blows  
I'll be your true referee  
Baby gotta let you know  
That you will be playin' for me  
So what's your fee  
When you step on the court  
Because this game is too short  
To be pretending to lending you things  
That I've never been taught  
Coz ya so fine  
Can ya give me a sign  
Coz ya - ya sublime  
And I'll do anything to make you mine

I got feeling, tell me what you're feeling

Chorus x3
