

Business, The "Class Compromise"

Visit "[Class Compromise](#)" on MotoLyrics.com

Welfare state - Class Compromise
Which stop's things short of revolution
assault on freedom there's no protection
there's no equality in exploitation
law and justice are hidden behind
a veil of ignorance and corruption
one salvation - through suicide
no one answers to the mass destruction

History's Glory
another dead man's story
When the voices haven't stopped
The powers at the top
their life is shaken, weakened and worried

Justice isn't meant to be blind
not deaf dumb - a mute institute
the cracks of liberty filled with the cash
the working man ain't got no solution
Government's power reigns with a blow
there dirty water stinks of pollution
The line goes deep, deep to the wall
there we await our execution
