

R.A.R. "Memories"

Visit "[Memories](#)" on MotoLyrics.com

You know girl, I've been wrong so many times,
but I want you to know that whitout you, I am nothing
So maby this time, we can come together, now

Oh yeah,
You say yes and I say no, let's stup the fight and let's
go home

When I'm sitting here all alone in my house,
and I wonder to myself what it's all about
Just the day before we was hugging and smiling,
doing things as one, outhere profiling
Hold eachother hands everywhere we go,
I'm always kisssing you so everybody know
Try to have you back when things are not okey,
and I brake the human off when they step into your
faceSo I'm asking you why (all together now) did you
have to leave

When I know that with you I wanna be
I got to hear my inner, cause my mind is on a straingth
'cause I'm thinkin' about the way you said you wanna
do your thing
Look at me and say that you don't want me in your life
But I'm dropping all the honeyz and I let you be my hike
Giving you my all and in every means,
even when I sleep, I can hear you in my dreams

All together now, let's take a walk in the sun,
All together now, c'mon everyone
All together now, together hand in hand,
in nomansland (we'll be together again)
All together now, let's take a walk in the sun,
All together now, c'mon everyone
All together now, together hand in hand,
in nomansland (we'll be together again)

So if it wins, your space is getting smaller,
room is closing in almost wants the wall

Just think back we was kickin it together,
'cause the moments and the thought we will always be

together, I don't want to fuss and fight bcause the
things you say
So maybe when you buy yourself you can come my way
When you look at me with your love sometimes I feel
No, I keep the wrong ago, so tell me what's the deal?
I even try to tell you everything I do, but you ust believe
in me
'cause baybe that's the real, and sometimes feeling
and confused
Get your mind together 'cause you gonna have to
choose
So can you tell me why you're feeling like you do?
'Cause things are never gonna be the same when I first
met with you
So try to keep your mind and stick with me, and we will
be together
Always, and hopelishly

Oooh, together
You say yes and I say no, let's stup the fighting and
let's go home
Together, hand in hand

All together now, let's take a walk in the sun,
All together now, c'mon everyone
All together now, together hand in hand,
in nomansland (we'll be together again)
All together now, let's take a walk in the sun,
All together now, c'mon everyone
You say yes and I say no, let's stup the fighting and
let's go home
In nomansland, we'll be together again

You made me so happy by giving me another chance,
I know that you feel the same as I do
And we'll be together forever and always
