There's a war in the jungle and you're all alone, here
comes another tricky
Stepping stone, watch out
Hey, there's no up without a down and what goes
around will come around,
Watch out

And let it rock & roll ya, life's a rollercoaster, enjoy the
ride, live
With pride
Fight the fights you have to fight, in the end it will be
right
When rock & roll's the soundtrack, then rock & roll's
the guide, right?

Shit is happening everywhere and no one ever said it's
fair, watch out
But never say you can't take it longer, coz what doesn't
kill you is making
You stronger, watch out

Let it rock & roll ya...

And
Fasten your seatbelts, hold on tight - and don't let go
Fasten your seatbelts, hold on tight - here comes the
show
Fasten your seatbelts, hold on tight - and don't let go
Fasten your seatbelts, hold on tight - fasten your
seatbelts, hold on tight
