[Rocky]

Should've been runnin'
A long long time ago
Should've seen it comin'
Oh, what happened I don't know

This girl was off the track
Ripped my heart right out from me
While I'm layin' on my back
When the poison came to me

[Riker]

All your lies
With blackened skies
No way out
When you kill them with your eyes

[Ross, Rocky, Riker]

She stole my heart
Ripped it apart
She left me stranded out in the dark
She's bad, woah
And I was too, too foolish

She's runnin' round'
All through the town
She's breaking hearts and tearing down
She's bad, woah
And I was too, too foolish
Now I gotta keep away from this girl

[Rocky]

She's an addiction
Way she's movin' so killin'
The fault of her affection
And she bites with such a sting

Once she sinks her teeth in
Then there's no time to escape
Once her venom kicks in
Then you're trapped no other way

[Riker]

All your lies
With blackened skies
No way out
When you kill them with your eyes

[Ross, Rocky, Riker]

She stole my heart
Ripped it apart
She left me stranded out in the dark
She's bad, woah
And I was too, too foolish

She's runnin' round'
All through the town
She's breaking hearts and tearing down
She's bad, woah
And I was too, too foolish
Now I gotta keep away from this girl

[Ross]

You broke me down
While I was leanin' away, away

You still run around
Playin' your games, your games, your games

Ga-a-ames

[Ross, Rocky, Riker]

Runnin' round' all through the town
She's breakin' hearts and tearing' down
She's bad, woah
But I was too, too foolish

She stole my heart
Ripped it apart
She left me stranded out in the dark
She's bad, woah
And I was too, too foolish

She's runnin' round'

All through the town
She's breaking hearts and tearing down
She's bad, woah
And I was too, too foolish
Now I gotta keep away from this girl

[Ross]

Now I gotta keep away from this gi-i-r-rl

Now I gotta keep away from this girl

Gotta keep away from girl
