R5

Fog lights out of sight

High tops lace it up converse chucks tight

Spikes up

Gloves cut strapped up

Sharp stuff don't touch so hot we're burning up

Spotlight

This is our time

Gonna shine so bright I'm gonna live my life

So tough

This rocks so rough can't be crushed cuz I stay focused

Ready ready or not (3x)

Ready set rock

Show em what we got

Taking it all the way to the top

Ready set rock

Just can't stop

Going into earthquake after shock

Ready set rock

Don't stop till you rock the spotlight up

The sky high can you take the limelight?

Strobe lights slow-mo vibe in overdrive

Sure the crowd tide scream-o ride on amplify

Tongue tied when you look in my eyes

Don't blink if you think that I might bite bite

So sweet metal beat the speaker cries

Rock won't get caught cuz we never hide

Ready ready or not (3x)

Ready set rock

Show em what we got

Taking it all the way to the top

Ready set rock

Just can't stop

Going into earthquake after shock

Ready set rock
