I found out the hard way
How easy love could be
I had nothing to believe in
Til you believed in me
If love is the only answer
Then why are we afraid
Let's be like heaven's angels
Who've come to lead the way

And if my heart had wings
I'd fly in to the sky
And bring back all the love
That's missing from our lives
And if my heart had wings
Then maybe I could see
Just where you find the faith
To love like you love me

I see so many hurting
The way I used to be
And I wish that I could give to them
The hope that you gave me
Your love is the river
That washes away my pain
And out of the dark night love's light
Will lead us home again

And if my heart had wings
I'd fly in to the sky
And bring back all the love
That's missing from our lives
And if my heart had wings
Then maybe I could see
Just where you find the faith
To love like you love me
