"Mates"

Mates, mates, mates, mates, mates, mates
Mates, mates, mates, mates, mates, mates
I wanna go out to see her, aha, aha
And it's just how I thought it would it be, aha, aha
How could them important glissen
Well I'm lost, I'm lost without it
It's a shake, it's a tremor
When you give from everything you could give
And breaking up it's never easy
No puts, or too heavy,
I could down the walls of the place we used to go
I love you mates, mates,
Too how much you, mates, mates
What this could be, and it's true

It cuts you too, aha, aha
Oh it cuts you too, aha
Now all the times I used to doubt it
But now it seems I'm lost without it
I'm... of everybody, fall into the sun
It's an easy place to go,
Cut loose, to find somebody, you

Mates, mates, I never knew
Mates, mates, till I met you
Mates, mates, what this could be, oh it's true
Mates, mates, do it again
Mates, mates, do it again
Mates, mates, this just the way
To get through.
