"Old And New"

Watching all the sun lights around it
Waiting at the edge of the cliff
Old and new and they're moving like
And I'm never gonna get that through
Old and new, whoa, old and new, whoa
Old and new, cause waking is the way to go on

I know everybody has seen it
Try to ask your mind and be still
One day sorrow, tomorrow's gone
And I'm never gonna get that through
Old and new, whoa, old and new, whoa
Old and new, cause waking is the way to go on
