Loneliness

I spend half the weekend feeling the verse

All my news

Stuck in corners out to dry bout to drive

Butter than bruised

It's the pity

Tracking me into my thoughts this evening

And it's just like the lust I

What am I to do?

What am I to do?

What am I to do?

What am I to do?

Oh you

I preferred your hair when it was darker

Silky smooth

And for love so free to fall with nothing to prove

I want lead it

Try to go outside and count the feeling

Is happening all over

What am I to do?

What am I to do?

What am I to do?

What am I to do?

(Instrumental)

What am I to do?

What am I to do?

What am I to do?

What am I to do?
