Your just the kind of boy
the girls like me enjoy
you act like your so straight
baby i can tempt your fate
come on now mr clean
honey i know where youve been
i can tell
you and i, we could fly
raise some hell...

chorus

i could be happy, you could be happy,
we could make happy messy love
we could talk dirty, we could eat badly
we could do all that messy stuff...
i could be happy, you could be happy
we could make happy messy love

Ill take you too a place
where your love grows and aches
put chaos in your head
and ill mess up your bed
and everytime you scream
ill be glad its not a dream
pinch me now
be a brave boy and ill show you how..

chorus

i could be happy, you could be happy,
we could make happy messy love
we could talk dirty, we could eat badly
we could just turn the whole thing up
i could be happy, you could be happy
we could make happy messy love

im feeling hapy, messy, quick undress me
baby we'l clean up...

yeh yeh yeh yeh

happy messy love

everybody you love
lets get it up up up

i can tell
very well
you and i, we could fly
raise some hell.....

chorus
i could be happy, you could be happy,
we could make happy messy love
we could talk dirty, we could eat badly
we could do all that messy stuff...
i could be happy, you could be happy
we could make happy messy love
makin my mind up
baby your signed up
welcome to happy messy love

happy messy love
happy messy love

show me you care
on the floor
in the chair
turn everything on
here we come
now we're gone..

happy messy love
happy messy love
