Someone has done you wrong kicked hatred straight in
your face.

Sliding down your throat you got a taste.

Seed sown in your heart.

Deep down in the dark pull it out that's what I say.

Friends there's no time to delay.

Forgiveness is healing that reaches to the bone like
coming out of hospital and going home.

Don't water hatred in the shadows

don't fertilize hatred in the shade.

It will surly show just like a parade.

It won't go away lets deal with the pain.

Don't be emotionally lame dragging a great ball
and chain.

Forgiveness is healing that reaches to the bone like
coming out of hospital and going home.
