thunder is shaking the roof of my car i would go
through
a desert for you my thoughts are flying to where you
are i would go through a desert for you right on the
edge of a storm tonight i'll be with you and warm to
lie in the circle of your arms i would go through a
desert for you and for me i would go through a desert
for you the sky had been falling when i heard your
name calling me by name calling me by my name out
of
the corner of my eye i saw you blazin' brightly by
you're such a shooting star that's what you are you're
just a shooting star mountains are moving in the desert
sun i am crossing this desert for you it is a lesson
and it must be done i am crossing this desert for you
