maybe a shaming  
when you're down you can't forget  
your friends say the same thing  
impetuous and private  
when are you down when are you free  
when are you free  
tell the others they've been missing  
all that's gone before  
all the others don't know her  
or they don't care anymore  
you know you can't be in 2 places at 1 time  
another obstinate asshole  
another free riding miserly  
for her for her  
god how I adore her  
tell the others they've been missing  
all that's gone before  
all the others don't know her  
or they don't care anymore
