"Where R We"

Visit "[Where R We](#)" on MotoLyrics.com

I went for a walk today (I was sleeping all day long)
Through the streets and through the field
(Dreamt of something-- no,
no, nothing) Found myself in the water
(I watched TV for thirteen hours) Felt the summer
revive
me (In this heat, who's thinking?
) Where are we? Here on the other side Where are we?
If you don't love me One hundred reasons to hang up
(One hundred more to call again) Talking constant
motionless
(I thought we'd always be friends) It's not supposed
to end like this Did we forget how to be?
Did we forget our skin? Don't have none It's all gone
Where are we? Here on the other side Where are we?
You don't love me Look at me Where are we?
Here on the other side Where are we?
If you don't love me Where are we?
Here on the other side Where are we? Here
